ArcGIS Enterprise 11.5 Issues Addressed List

ArcGIS Data Store

[Top](#)

BUG-000170419	Changepassword utility fails for dsrepuser in highly available environments for the relational data store.
BUG-000171289	Spatiotemporal data store configuration fails on Linux when certain environmental conditions are in place.
BUG-000172282	Geoenrichment fails to start when hosting server is unavailable.
BUG-000175297	Replacing the SSL certificate for the relational data store fails when the certificate's subject alternative name (SAN) resolves to the datastore machine but the common name does not resolve to the datastore machine.

ArcGIS Enterprise Portal

ArcGIS Dashboards

[Top](#)

BUG-000162165	The indicator element using data from a standalone layer in ArcGIS Dashboards shows incorrect values when filtered based on selection under 'layer action' set on the map element.
BUG-000162931	Displaying grouped values in the Table element of ArcGIS Dashboards and calculating the count based on an attribute, the count column in the table is empty.
BUG-000175160	Branch versioned data in the ArcGIS Dashboards Table element displays no values when using the Average function on the Values field.
BUG-000175494	Zoom To' or 'Pan To' in the pop-up of a web scene does not work in ArcGIS Dashboards, but functions as expected in the web scene itself.
ENH-000124306	Series chart should be able to add more than one value axis parameter. For example, user wants to compare different KPIs against time.
ENH-000129118	Measurement feature on the webmap on the dashboard for analysis.
ENH-000156029	Provide more font choices for the Header element in ArcGIS Dashboards.

ArcGIS Experience Builder

[Top](#)

BUG-000153142	The Edit widget in ArcGIS Experience Builder partially honors the app theme if the 'Geometry and attribute' option is selected.
BUG-000154265	Switching views within the Views Navigation widget within a splash screen closes the window and populates the screen content when the browser is refreshed. It works as expected when using a fixed or anchored window that is prompted.

ArcGIS Enterprise 11.5 Issues Addressed List

BUG-000155124	In the ArcGIS Experience Builder Print widget, layout templates of custom print services added as a utility are not listed when the service is published from ArcGIS Pro without using English as the display language.
BUG-000155301	In ArcGIS Experience Builder, the Table widget displays a coded value upon data selection rather than the domain label.
BUG-000158360	The Feature Info widget does not display attachments or use the 'Attachments' Arcade expression in the pop-up if the data source is a hosted feature layer with a selected features view.
BUG-000160100	The 'Zoom to' option in the Map Layers widget in ArcGIS Experience Builder does not work as expected for services with more than 10,000 records.
BUG-000161772	ArcGIS Experience Builder does not allow to search and use the Esri default base map in the Basemap Gallery widget if the 'Members can search for content outside organization' setting is disabled in the security settings.
BUG-000163119	After creating and adding a tile layer with enabled pop-ups referencing a polygon feature layer with attributes, an unexpected pop-up with the name, '[name]-highlight', field name of ' __EXB_OID__ ', and field value of '1' is displayed.
BUG-000163398	The sorted field in the List widget does not populate the Feature Info widget if the latter is in a Sidebar widget panel.
BUG-000163815	When there are two Edit widgets, the Edit widget does not respond when making edits.
BUG-000164066	After selecting an editable layer in the Map widget using the Edit widget, non-editable tile (or image) map services are allowed to be highlighted in the ArcGIS Experience Builder. Then a [Map Service Name]-highlight layer is added to the Edit widget.
BUG-000164354	The ArcGIS Experience Builder Print widget's preview print extent remains highlighted after closing the widget.
BUG-000165244	The Widget Controller widget pushes aside the map when resizing the browser's window in ArcGIS Experience Builder.
BUG-000165289	The ArcGIS Experience Builder Embed widget does not display text in the Avenir Next font style.
BUG-000165785	Unable to update multiline attributes by pressing Enter in the ArcGIS Experience Builder Edit widget when the widget is configured to edit 'attributes only'.
BUG-000165842	When using a web map in combination with a Table widget and an Edit widget, checking the 'Show pop-up upon feature selection' check box in the Map settings does not show the pop-up when a record from the table is selected.
BUG-000166023	The Tab key functionality becomes stuck in the Map Layers widget when inside the Widget Controller widget in the ArcGIS Experience Builder web application.
BUG-000166304	Edit widget preserves the selection of the first editable layer source when multiple selections are cleared in Experience Builder.
BUG-000166322	A custom geoprocessing service does not show messages in the ArcGIS Experience Builder Analysis widget.
BUG-000166485	The FID and OID fields are displayed in the Statistics option of the ArcGIS Experience Builder app even after hiding the fields when selecting fields for initial display.
BUG-000166658	When using a 3D scene in ArcGIS Experience Builder with the geometry type set to multipatch, the Edit Widget is blank upon the selection of the feature to be modified.
BUG-000166812	When viewing selected or queried records in the Table widget in ArcGIS Experience Builder, the resulting table does not honor the fields configured in the layer settings.
BUG-000166931	The buffer distance of the Select widget in ArcGIS Experience Builder is incorrect when the unit of measurement is set to meters.

ArcGIS Enterprise 11.5 Issues Addressed List

BUG-000167606	The Edit Widget in ArcGIS Experience Builder loses edits if a map is clicked before the edits are submitted.
BUG-000167620	The Table widget in ArcGIS Experience Builder does not show accurate record count when custom parameters are set in the web map.
BUG-000167678	In ArcGIS Experience Builder, the Search widget function of zooming to search results does not work as expected with the 'Zoom to' trigger to a map and the 'Zoon scale' set to Automatic.
BUG-000167708	In ArcGIS Experience Builder, changing the order of layers in the Layer widget is not responsive when in mobile or tablet mode.
BUG-000168002	After using the ArcGIS Experience Builder Edit widget to make edits to a layer which is duplicated, it is not possible to remove the layer's selection.
BUG-000168037	Unable to type in the search box for the Query widget in ArcGIS Experience Builder on a mobile device as the keyboard is not showing up when not pulling the widget all the way up.
BUG-000168073	When deleting a bookmark within the Bookmark widget (the List template) in ArcGIS Experience Builder, the map extent changes and zooms to the bookmark.
BUG-000168396	The chosen filter layer in the drop-down of the Query widget does not consistently display layer labels for polygon features.
BUG-000168551	When republishing an experience in ArcGIS Experience Builder with the Direction widget containing the Route Service as Subscriber Content with the Minute interval, if the request limit does not change between republishes, the error, "Cannot load route service. This may be due to the service not being accessible" is returned.
BUG-000168597	The required field is not being honored when adding new records in ArcGIS Experience Builder.
BUG-000168652	In ArcGIS Experience Builder, the Print widget only supports one other selectable file format in addition to PDF for print templates when using a custom print service.
BUG-000168653	In ArcGIS Experience Builder, the Print widget only supports one other selectable file format in addition to PDF for print templates when using a custom print service.
BUG-000168855	In ArcGIS Experience Builder, the Chart widget does not generate results if the same polygon is selected again in the Map widget.
BUG-000168865	The Measurement widget automatically select the features when the Enable pop-ups option in the Map widget is turned off in ArcGIS Experience Builder.
BUG-000169061	Actions configured in the Search widget are not honored when the source of the Search widget is a locator in ArcGIS Experience Builder.
BUG-000169153	The bookmark set in Map Viewer is not recognized in the Bookmark widget within ArcGIS Experience Builder if the web map includes group layers.
BUG-000169205	When selecting a line feature using the Select line tool from the Elevation Profile widget, a text widget will not display the information about the selected line feature.
BUG-000169279	Combining the 'org' and 'data_s' parameters in an ArcGIS Experience Builder app URL does not load the app directly.
BUG-000169283	In ArcGIS Experience Builder, the visual focus is missing for images.
BUG-000169297	In ArcGIS Experience Builder, the sidebar is not resizable or adjustable on Android devices running Android version 14 or lower.
BUG-000169365	For the Map widget in ArcGIS Experience Builder, pop-ups do not display for image services consumed in a web map.
BUG-000169501	The Survey widget should revert to the default state in ArcGIS Experience Builder if the corresponding selection is cleared.
BUG-000169817	Short URLs created using the Share widget do not open as expected in ArcGIS Experience Builder.

ArcGIS Enterprise 11.5 Issues Addressed List

BUG-000169888	ArcGIS Experience Builder allows data to be exported via the attribute table, even when the 'Allow export' option for the feature layer is disabled in the Data panel.
BUG-000169937	In the ArcGIS Experience Builder Query widget, setting up predefined values only works when clicking on a very specific small area.
BUG-000169976	The Basemap Gallery widget fails to load in the browser on iOS and Android devices if the WMS is a OGC service and is configured in the widget settings of ArcGIS Experience Builder.
BUG-000169999	The Edit widget did not open upon selecting a feature from the second group layer in ArcGIS Experience Builder.
BUG-000170001	Removing the number in the 'Search distance' setting in the Near Me widget (opened through the Widget Controller widget, fixed to bottom of the screen) on an iPhone moves the contents of the web experience up, rendering the web experience unusable.
BUG-000170063	When loading a single KML file using the Add Data widget in Experience Builder, the 'Add data' pane will show three items are selected.
BUG-000170073	The Add Data widget within ArcGIS Experience Builder duplicates layers when added to a web map.
BUG-000170096	The ArcGIS Experience Builder Query and Edit widgets do not pull data consistently when working with layers with a relationship if editing is set to 'Attribute only'.
BUG-000170178	In ArcGIS Experience Builder, the Feature Info widget does not respond to the selected features after the 30th feature.
BUG-000170185	Mobile workers can add records to a table through the Edit Widget in ArcGIS Experience Builder only when both 'Update records' and 'Add records' are enabled, not when only 'Add records' is enabled.
BUG-000170235	The Widget Controller widget, which is configured in the last screen group of the ArcGIS Experience Builder app with multiple screen groups, does not support vertical resizing of the widget windows.
BUG-000170244	ArcGIS Experience Builder allows members with a custom role to open in edit mode, even when the web experience is not in a shared update group with the member.
BUG-000170369	In the ArcGIS Experience Builder List widget, the custom data view selection does not honor the dynamic content configuration in the text box.
BUG-000170700	The ArcGIS Experience Builder Map Layers widget queries all layers to get all records before applying the 'Zoom to' action on a service layer.
BUG-000170761	In ArcGIS Experience Builder, the List widget's Search and Sort tool options overlap in the widget window if it is small.
BUG-000170813	After changing two or more attributes with the Switch input type in the Edit Widget in ArcGIS Experience Builder, and reverting one of the changes, the Update button is greyed out.
BUG-000170816	The ArcGIS Experience Builder Coordinates widget configuration does not offer an option to label the output coordinate system, unlike in ArcGIS Web AppBuilder.
BUG-000170906	The Chart widget in ArcGIS Experience Builder does not adhere to the refresh interval if the data category type is set to 'By group'.
BUG-000170923	The Coordinates widget in ArcGIS Experience Builder does not honor valid WKIDs.
BUG-000170951	The ArcGIS Experience Builder Coordinates widget does not convert the eye altitude to feet when the UTM projection is set with imperial units.
BUG-000171056	The Edit widget fails to display layers added to the map through the Add Data widget in ArcGIS Experience Builder.
BUG-000171130	Panning web scenes is not possible after making selections using the Select Widget in ArcGIS Experience Builder.
BUG-000171143	The ArcGIS Experience Builder Search widget does not match partial feature layer searches.

ArcGIS Enterprise 11.5 Issues Addressed List

BUG-000171159	The vector images in the List widget are missing a text alternative.
BUG-000171195	The non-default map layer options for layers added to a map in ArcGIS Experience Builder using the Add Data widget disappear when the layer is repositioned in the Map Layer widget.
BUG-000171285	When applying a Date filter in ArcGIS Experience Builder, the data is not refreshed after setting the filter to zero (0).
BUG-000171351	In ArcGIS Experience Builder, the fixed panel in the Widget Controller widget remains displayed on the side when viewed on a tablet, even after being moved to the pending list.
BUG-000171369	The attributes for selected features in the ArcGIS Experience Builder Table widget are not displayed after refreshing the experience in the web browser following a selection.
BUG-000171387	Unable to add image service to the Add Data widget in ArcGIS Experience Builder.
BUG-000171412	In ArcGIS Experience Builder, query expressions filtering records with the date function settings 'Tomorrow' or 'Between today and tomorrow' produce incorrect results.
BUG-000171442	When URL parameters are configured in ArcGIS Experience Builder and the user is completely signed out of ArcGIS Online, logging in redirects to a blank 'ArcGIS Rest JS OAuth redirect' page.
BUG-000171449	In ArcGIS Experience Builder, the Draw widget measurements intermittently display on the web map and in the Print widget print results.
BUG-000171483	In ArcGIS Experience Builder, data and attached images or files do not display in the Feature Info widget when accessed via a window linked from a button in a List widget sorted by a date field.
BUG-000171520	The date drop-down menu cannot be opened in the 3D Toolbox widget when displayed in full-screen mode in ArcGIS Experience Builder.
BUG-000171537	The Table widget in ArcGIS Experience Builder does not return non-spatial records even though the trace returns them.
BUG-000171547	The input text for the Coordinate Conversion widget prevents users from selecting adjacent buttons.
BUG-000171557	An ArcGIS Experience Builder app with a Utility Network Trace widget returns the error "An error occurred. A required parameter is missing from the JSON."
BUG-000171716	Console error "499: Token Required" is returned when launching the Edit widget in ArcGIS Experience Builder.
BUG-000171751	Pop-up closes immediately in ArcGIS Experience Builder when the multipatch feature is selected the first time.
BUG-000171804	Slow ArcGIS Experience Builder performance on iOS devices when the web experience contains nested rows, columns, and other elements (text and image).
BUG-000172045	Unable to utilize keyboard navigation to tab through buttons on the splash screen in the ArcGIS Experience Builder when having the Widget Controller widget open upon loading.
BUG-000172159	The style.ts method for importing custom fonts in ArcGIS Experience Builder theme development does not import fonts.
BUG-000172185	Unable to navigate the Menu widget in the header of ArcGIS Experience Builder using the keyboard (Tab and Enter), except when the first page is selected from any pre-existing template other than the Blank template.
BUG-000172223	In ArcGIS Experience Builder, the Near Me widget does not return results for points within a polygon if the distance is set to 0 km and the web map contains a British National Grid (BNG) coordinate system basemap.
BUG-000172261	An ArcGIS Experience Builder application containing the Map and Coordinate Conversion widgets sends a large number of reverse geocode requests while the cursor hovers over the map.

ArcGIS Enterprise 11.5 Issues Addressed List

BUG-000172271	The Filter Widget dropdown appears behind filter when viewed in full screen in ArcGIS Experience Builder
BUG-000172281	The Widget Controller widget content carries over between tabs in ArcGIS Experience Builder.
BUG-000172368	Widgets within a Widget Controller widget in ArcGIS Experience Builder show empty configuration panes when selected from the Page Contents pane.
BUG-000172498	In ArcGIS Experience Builder, no records are exported when trying to export data using the Query widget with the Buffer operation enabled.
BUG-000172528	In ArcGIS Experience Builder, selecting an attribute with multiple predefined values in the Group Filter widget causes the Search Results to reset and show the full selection list.
BUG-000172663	In ArcGIS Experience Builder, using the point selection method in the Select widget to generate query results based on a spatial selection initially returns only one result.
BUG-000172665	In ArcGIS Experience Builder, using the point selection method in the Select widget to generate query results based on a spatial selection initially returns only one result.
BUG-000172716	When embedding the ArcGIS Experience Builder application into another web application such as ArcGIS Hub, ArcGIS Dashboards, or ArcGIS StoryMaps, the resizing of the layout gets stuck and continues to resize the element even after releasing the mouse click.
BUG-000172822	In the Table widget of ArcGIS Experience Builder, strings break down when there is a comma present after double quotes, causing the text from that point onward to shift to the next cell when exporting as a CSV file.
BUG-000172931	The time value recorded within the 'date created' field is not displayed within the Filter widget in ArcGIS Experience Builder.
BUG-000173023	ObjectID is the only field displayed in the Statistics action when using the Select widget in the ArcGIS Experience Builder app.
BUG-000173097	After hiding sub-layers in the Map Layers widget within a map image layer, the sub-layers are still displayed in the published application.
BUG-000173261	Unable to redisplay the full list of options after configuring a clause in the Table widget in ArcGIS Experience Builder.
BUG-000173312	Subtype group layers are not recognized as a data source in ArcGIS Experience Builder widgets.
BUG-000173385	The Basemap Gallery widget does not display when added to multiple screens on a 'Blank Scrolling Page' template in ArcGIS Experience Builder.
BUG-000173445	Adjusting the size of grids using the Checkerboard template in ArcGIS Experience Builder causes grids to move erratically with the cursor when embedded in ArcGIS Hub sites or ArcGIS StoryMaps, disrupting mouse functionality during window scrolling.
BUG-000173463	The Sidebar widget expands in phone view when the size is set in (%) instead of (px) in ArcGIS Experience Builder.
BUG-000173552	Related table records can be deleted via Edit widget in ArcGIS Experience Builder, even the delete option is disabled on the parent layer.
BUG-000173665	Related table records can be deleted through the Edit widget in ArcGIS Experience Builder when the Delete option is disabled on the parent layer in ArcGIS Online.
BUG-000173818	The widgets added by default within a Tab template in ArcGIS Experience Builder are unresponsive for all additional pages other than the first.
BUG-000173943	Related records for selected features are not displayed in the ArcGIS Experience Builder Feature Info widget.
BUG-000174244	ArcGIS Experience Builder does not recognize data with subtypes as a data source in the Data tab when adding the service from a web map.
BUG-000174694	The Table widget in ArcGIS Experience Builder allows exporting the table even if the 'Allow others to export to different formats' check box is unchecked on the feature layer.

ArcGIS Enterprise 11.5 Issues Addressed List

BUG-000175064	The Edit widget in ArcGIS Experience Builder sends a large number of requests when editing a feature layer, causing a performance downgrade.
BUG-000175268	Unable to navigate back from a related record to the parent record in the edit widget in ArcGIS Experience Builder.
BUG-000175309	ArcGIS Experience Builder apps do not scroll through or load Screen Group content on a Scrolling Page when the first Page is a Fullscreen template that opens with a Window.
BUG-000175470	ArcGIS Experience Builder Print widget with custom print services fails to print when a data source is connected for dynamic text element in the layout for ArcGIS Online.
BUG-000175608	The 'Last Update' text in the table widget is not displaying after publishing the ArcGIS Experience Builder app.
BUG-000175685	The Locator View is not working correctly when configured to search within a specified area in ArcGIS Experience Builder.
BUG-000175724	Unable to run analysis in Near Me widget of ArcGIS Experience Builder configured within a Section and a Sidebar widget.
ENH-000141210	Provide increased customization options to wrap text on axis labels in chart elements in ArcGIS Experience Builder.
ENH-000147218	Allow the Sketch (Draw) Widget in Experience Builder the ability to add and edit text and more control of overall drawing edits
ENH-000148335	Include the option to create custom visible scales for a webmap in ArcGIS Experience Builder.
ENH-000150230	Provide the functionality to Show a pop-up when the feature or location is found for the search widget in ArcGIS Experience Builder.
ENH-000151756	Provide an option in the ArcGIS Experience Builder Print Widget to print the attributes present in the Table widget along with the map.
ENH-000153078	Improve the performance of ArcGIS Experience Builder when working with many layers.
ENH-000153623	Provide a rich text editor widget for ArcGIS Experience Builder.
ENH-000153767	Provide ability to add text or image to the Chart widget when no data is selected in ArcGIS Experience Builder.
ENH-000154127	Allow to filter data using "next week", "next month" etc. in ArcGIS Experience Builder Filter widget.
ENH-000154625	Add the ability to remove and rename export options for data from the table widget in ArcGIS Experience Builder.
ENH-000155506	In Experience Builder, the Draw Widget should allow adding annotations (Text).
ENH-000157526	In ArcGIS Experience Builder, add a Filter widget, similar to what is available in ArcGIS Web AppBuilder.
ENH-000158928	In ArcGIS Experience Builder, add the ability to set layer visibility range in the Map Layers widget similar to the same functionality in the Layer List widget from ArcGIS Web AppBuilder.
ENH-000159288	Provide Text functionality to the ArcGIS Experience Builder 'Draw' widget.
ENH-000159606	Add the ability to "show current features" with the Temporal Slider widget in ArcGIS Experience Builder.
ENH-000159847	Enable Local Search with search distance parameter in ArcGIS Experience Builder Search Widget.
ENH-000159959	ArcGIS Experience Builder Select tool buttons in Map widget should use ARIA labels.
ENH-000160365	In ArcGIS Experience Builder, provide the option to enable autoplay for the Embed Widget when embedding a Youtube video.
ENH-000160982	In ArcGIS Experience Builder, add Nautical Miles as an option for measurement units in the Draw widget.

ArcGIS Enterprise 11.5 Issues Addressed List

ENH-000161074	If a layout contains dynamic elements, provide an option in the Print widget settings to select a data source for each element.
ENH-000161860	In ArcGIS Experience Builder, include the option to not fully load page elements in the builder to improve performance.
ENH-000162150	In ArcGIS Experience Builder, provide the ability to Turn off Export Data for All Layers.
ENH-000162816	Provide the ability to group different widgets into a single widget in ArcGIS Experience Builder.
ENH-000162882	Provide the ability to search in the search widget and select overlapping features from the layer in Experience Builder.
ENH-000163529	In ArcGIS Experience Builder apps, provide the ability to expand Grouped Layers by default with the Map Layers widget.
ENH-000163954	Provide the option to select all layers at once in ArcGIS Experience Builder.
ENH-000163993	The Branch Version Management widget in ArcGIS Experience Builder does not update the map when versions are switched for feature layers containing subtype groups.
ENH-000164172	Provide documentation about the ArcGIS Experience Builder's Filter widget's support for WFS layers within the connected map widget.
ENH-000164349	Utility Network Trace Widget in ArcGIS Experience Builder is unable to create a trace starting point when the utility network data has subtype group layers.
ENH-000164413	Provide the ability to export reports with maps using the Near Me widget in ArcGIS Experience Builder.
ENH-000164552	Provide a Save option for the Near Me widget in ArcGIS Experience Builder.
ENH-000165110	Add the 'Control all layers' capability for the Layer list in ArcGIS Experience Builder.
ENH-000166524	Enable the Near-Me widget in ArcGIS Experience Builder to export multiple selected feature layers directly into a single PDF file for a report.
ENH-000166820	Directions widget in Experience Builder should have the option to add layer source, as this was an option in Web App Builder.
ENH-000167036	Provide the ability to enable "filter by map extent" in the Table widget.
ENH-000167152	Provide documentation for the recommended thumbnail size for ArcGIS Experience Builder.
ENH-000167283	Add the ability to configure the Add Data widget within ArcGIS Experience Builder so that the option to rename the layer can be toggled on/off
ENH-000168008	Provide the ability to set the default configuration of the Timeline filtering of the Timeline Widget to automatically on or off when used in Experience Builder.
ENH-000168086	Include the option for "is in the last", "is not in the last", "is not in the last", and "is not in the next" for non-hosted services in the Filter widget in ArcGIS Experience Builder.
ENH-000168390	Provide more documentation on the A11Y (accessibility) setting in ArcGIS Experience Builder.
ENH-000168491	Allow the Experience Builder Widget Controller the ability to stylize the internal vector drawing of the widget icons.
ENH-000168648	Display the input path for the ArcGIS Experience Builder Elevation Profile widget as a geodesic line for 2D web maps.
ENH-000169246	Increase the number of search suggestions returned by the ArcGIS Experience Builder Search Widget.
ENH-000169273	Provide a button to disable all layers at once and an option to reactivate all layers to reverse the deactivation in the Map Layers widget in ArcGIS Experience Builder.
ENH-000169284	In ArcGIS Experience Builder, the visual focus should be adjustable for buttons.
ENH-000169733	Provide the ability for the search widget, when using the ArcGIS Geocoding service, to automatically open a pop-up in the map view upon search,

ArcGIS Enterprise 11.5 Issues Addressed List

ENH-000170007	Allow the Table Widget in Experience Builder to synchronize the visible sheets with the visibility of the layers on the web map
ENH-000170454	Include the functionality to be able to select the units while using a Direction widget to measure distance in Experience Builder.
ENH-000171205	Provide the ability to adjust transparency using a slider in the Map Layers widget in ArcGIS Experience Builder.
ENH-000172006	In ArcGIS Experience Builder, improve relative date queries for ArcGIS Server services by adding "in the last" and "not in the last" conditions.
ENH-000172438	Provide the ability to enable snapping within the Draw widget in ArcGIS Experience Builder.
ENH-000172782	Provide a "Select All" option for the "Select Layers" configuration when "Customize Layers" is enabled in the Edit Widget in ArcGIS Experience Builder.
ENH-000173389	In ArcGIS Experience Builder, provide the ability for the Image widget to recognize the "Previous Image" and "Next Image" symbols.
ENH-000174179	Auto-populate Map Image Layers in drop-down list for the Search Widget when the source is set to Interact with a Map Widget.

Distributed Collaboration

[Top](#)

BUG-000155605	An ArcGIS Web AppBuilder application using the Search and Attribute Table widget shared from Portal for ArcGIS to ArcGIS Online continues to reference the source data in Portal for ArcGIS.
BUG-000158284	Hosted tables fail to synchronize in distributed collaborations between ArcGIS Enterprise and ArcGIS Online.
BUG-000159079	Service replicas persist on the destination after unsharing a feature service from a distributed collaboration.
BUG-000167652	The Last Modified timestamp of a hosted feature layer is updated during a collaboration workspace sync, even when the service has not changed.
BUG-000167766	Collaboration workspace sync fails when the ArcGIS Online organization is hosted in the Asia-Pacific region and the group joined to the workspace contains more than 20 items.
BUG-000170040	Slow performance of the item list comparison process during a distributed collaboration sync
ENH-000156452	Provide more descriptive error messages when a collaboration workspace sync fails.

Home Application

[Top](#)

BUG-000139112	Certain URL parameters are not honored when the Map Viewer is launched on mobile devices, resulting in an incorrect position on the web map.
BUG-000165875	An error message is returned when changing the ownership of several items at the same time if the items are dependent on each other, even though the ownership transfer was properly processed.
BUG-000167799	When editing the Portal for ArcGIS home page, editing the text in any link content block results in the deletion of the associated image, requiring it to be re-uploaded.

ArcGIS Enterprise 11.5 Issues Addressed List

BUG-000168245	Groups and add-on licenses configured as new member defaults are assigned to new members added through the ArcGIS Enterprise portal, despite deselecting the groups and licenses during the add member workflow.
BUG-000169460	Unable to open and access the URL address of a PDF item in ArcGIS Enterprise.
BUG-000169975	When the Enterprise portal is configured with a publicly available print service from a non-federated ArcGIS Server, the Organization Settings page repeatedly prompts for credentials.
BUG-000171514	When the organization's help source is set to use web help, the Change your password page contains an incomplete help link and leads to a page not found.
BUG-000172119	Group managers are unable to add members to groups through the ArcGIS Enterprise portal Organization>Members tab when the group is an administrative group and the 'Who can contribute content' setting is set to group owner and managers.
BUG-000172131	Gallery page displays items owned by Esri system users when the Gallery is configured to list all organization items.
BUG-000172153	Content categories are not properly assigned when items are categorized on the item page, which results in no items returned when filtering using content categories on the ArcGIS Enterprise portal content page.
BUG-000172173	With the organization language set to German and number format set to Österreich or Switzerland - Schweiz, the e-mail setting username and password hints should begin with uppercase letters.
BUG-000172534	The minimum characters required for Security Assertion Markup Language (SAML) or OpenIDConnect (OIDC) usernames has been lowered from six to three.
BUG-000172976	The gallery page in the ArcGIS Enterprise portal does not load results when applying both a content category and item type filter.
BUG-000173091	Rebuild Cache and Migrate Cache options are not showing up when you login as an admin and not the owner of the service.
BUG-000173639	When the ArcGIS Enterprise portal initiates a SAML logout, include the "Format" attribute in the SAML logout request.
BUG-000173803	Accessing a group using the group URL as an anonymous user redirects to an error page instead of a sign-in page.
BUG-000173811	Cannot add custom widgets from ArcGIS Web AppBuilder and ArcGIS Experience Builder to ArcGIS Enterprise.
BUG-000173960	Content categories cannot be configured when external content has been disabled as part of configuring a disconnected deployment.
BUG-000174705	Date formatting across the portal organization does not follow the organization's number and date format settings.
BUG-000175780	The Organization>Settings page does not load for members assigned a custom roles that includes the Administrative organization webhooks privilege but does not also include the utility services or servers privileges.
BUG-000175886	Unable to display the classification value on the item details page if the only selected value is UNCLASSIFIED.
BUG-000176448	Subscriber and premium Living Atlas items may be inaccessible in cloud environments.
BUG-000176450	Manage delete protection settings for multiple items owned by the same organization member.
BUG-000176477	If Global ID and Archiving are not enabled on feature layers published by reference, an error should be returned when attempting to enable synchronization from the item page.
BUG-000176478	Enabling a service object extension on an image service from its layer's item page should return an error if the service is not configured to use the shared instance pool.

ArcGIS Enterprise 11.5 Issues Addressed List

BUG-000176479	The 'Skip to content' button does not function on the organization settings page in Portal for ArcGIS.
BUG-000176481	Portal for ArcGIS does not show ArcGIS Field Maps or the field apps bundle as included in the Contributor user type.
BUG-000176482	In Portal for ArcGIS, images added as items ask for a thumbnail to be added on the item details page.
BUG-000176483	When Administrators are attempting to unassign duplicate ArcGIS Pro licenses from members licenses in bulk, there is no error message returned when this fails due to a member having taken ArcGIS Pro offline.
ENH-000130876	Support Feature Layer search in ArcGIS Enterprise.
ENH-000157232	Maintain member selection after managing add-on licenses, user types or assigning member categories in the portal's Organization> Members tab.
ENH-000176449	Provide the ability to integrate deep learning models into an organization's ArcGIS Living Atlas content.
ENH-000176451	Manage ArcGIS Pro settings, including offline usage, from the Licenses tab.
ENH-000176475	Support the ability for the user to store favorite classifications.
ENH-000176476	Add support for managing the service capabilities of map image layers published from cloud data warehouse data from the layer's item page.
ENH-000176480	Provide an About page for administrators to display organization settings, hardware and license information.
ENH-000176484	Add a "Show Password" option on sign in page.
ENH-000176492	Support anonymous authentication for Amazon S3 cloud storage data stores.

Map Viewer

[Top](#)

BUG-000150983	In a disconnected environment, the map image layer cannot be added as a basemap to the new Map Viewer if the default basemap group is defined and the default basemap is not accessible
BUG-000155199	Map image layers published in ArcGIS Pro with symbology in descending order display the symbology legend in ascending order in Map Viewer by default.
BUG-000155205	The complex symbology of map image layers containing multiple sublayers is not retained if one of the sublayers is removed or updated in the web map.
BUG-000165204	Pop-ups in Map Viewer do not work for features using a unique value renderer if a NULL value is present in the field used for symbology.
BUG-000166458	When adding a Web Feature Service (WFS) layer originating from a multi-layer OGC WFS as an item in Map Viewer, a WFS item referencing the first layer of the WFS is published.
BUG-000167085	When adding a Web Map Tile Service (WMTS) with multiple layers as an item to the portal, only the first layer is displayed in Map Viewer.
BUG-000170074	Adding a Web Map Tile Service (WMTS) as an item to an ArcGIS Enterprise portal, and then using the 'Use as Basemap' option to add it to the map returns an error message.
BUG-000170421	The legend does not display for map image layers in Map Viewer.
BUG-000171332	Unable to edit or fill in time on a date field in Map Viewer when language is set to Danish.

ArcGIS Enterprise 11.5 Issues Addressed List

BUG-000174950	Hosted feature layers enabled for public editing are not editable when a user is logged in with a Viewer user type.
ENH-000093139	Feature services in ArcGIS Online and ArcGIS Enterprise do not display coded value domain descriptions if the domains are applied through a subtype on the feature layer.
ENH-000126767	Add the capability of "Drag to change route" functionality in the ArcGIS API for JavaScript 4.x Direction widget.
ENH-000149847	Display the subtype description instead of the coded value in popup.
ENH-000154869	Add ability to manually manage feature layer templates in Map Viewer.
ENH-000159669	Add an option to use Web Styles in Map Viewer's sketch layer.
ENH-000159723	Provide the ability to save the field/column order in the attribute table in Map Viewer.
ENH-000169598	Allow pop-ups to honor the MapImageLayer feature display order.
ENH-000176496	Add support for display filters in Map Viewer.
ENH-000176497	Add ability to embed maps in Map Viewer.
ENH-000176498	Add support for displaying, adding, removing and modifying attachments in feature table in Map Viewer.
ENH-000176499	Add ability to use SQL expressions when calculating field values in Map Viewer.

Portal Framework

[Top](#)

BUG-000095550	Deleting users from Portal for ArcGIS is not possible if the username contains a forward slash (/) or backslash (\) mark, and the user is created using an enterprise identity provider (IDP).
BUG-000132576	When validating a federated hosting server, Portal for ArcGIS always reconfigures and restarts the offlinePackaging service even when already configured.
BUG-000138132	Offline ArcGIS Pro licenses cannot be returned after a Portal for ArcGIS upgrade.
BUG-000167622	The index service Portal for ArcGIS (Linux) crashes when certain environmental conditions are in place.
BUG-000170427	The OpenSearch processes running on ArcGIS Enterprise portal should only support TLS 1.2 and 1.3.
BUG-000171200	Disabling Living Atlas leads to a mismatch in index status.
BUG-000171841	The releaseLicense API does not support ArcGIS AllSource.
BUG-000174317	Updating a federated server URL fails when the ArcGIS Server REST services directory is disabled.
ENH-000176501	Provide the ability to report mismatched items, users, and groups in the index.

ArcGIS Enterprise 11.5 Issues Addressed List

Scene Viewer

[Top](#)

BUG-000158844	A non-visible Web Map Service (WMS) layer contained in a group layer is displayed during the initialization of a scene.
BUG-000167787	Looking up in a local scene flips the camera 180 degrees and does not go past the horizon.
BUG-000169197	Related tables are missing a default popup template.
BUG-000172940	Callouts cause significant performance issues in Scene Viewer.

Webhooks

[Top](#)

ENH-000176502	Include the service URL in the webhook payload for feature service schema change events.
ENH-000176503	New organization webhook item changeTypes for protect and unprotect.

ArcGIS Enterprise SDK

[Top](#)

BUG-000174931	Feature service with Server Object Interceptor enabled on it does not release locks on a registered SQL Server geodatabase registered with ArcGIS Pro even after the feature service is stopped.
BUG-000176513	An error occurs when attempting to enable a Server Object Extension (SOE) on an imagery layer where both the SOE and the service are set to support shared instances.
ENH-000166746	All map services published to ArcGIS Enterprise after a server object extension (SOE) or server object interceptor (SOI) is deployed to ArcGIS Server restart if the SOE or SOI is undeployed (deleted) from ArcGIS Server, even though the SOE or SOI is not enabled on any services.

ArcGIS GeoEvent Server

[Top](#)

BUG-000173375	The Receive Really Simple Syndication (RSS) input connector does not process data.

ArcGIS Enterprise 11.5 Issues Addressed List

ArcGIS Mission

[Top](#)

BUG-000174371	An information banner from the ArcGIS Enterprise portal containing an '&' displays the character as '&' in ArcGIS Mission Manager.
BUG-000175558	Unable to create a new mission in ArcGIS Mission Manager after updating the portal default language, number and date format.

ArcGIS Notebook Server

[Top](#)

BUG-000169020	ArcGIS Notebook Server (Linux) fails to start on IPV6 only environment.
BUG-000174046	Upgrading ArcGIS Notebook Server on Linux results in the configuration store and server directories being deleted, which may render the site inaccessible.
ENH-000176507	Provide the ability to create webhooks receivers for automating notebook workflows in ArcGIS Notebook Server Administrator Directory.
ENH-000176508	Provide the ability to export backup files of the ArcGIS Notebook Server site settings, services, and webhooks in the Web GIS Disaster Recovery (WebGISDR) tool.
ENH-000176509	In ArcGIS Notebook Runtime version 12.0, include ArcGIS API for Python 2.4.1, ArcPy 3.5, and their dependencies.
ENH-000176510	Provide the ability to configure optional input parameters for notebook web tools.
ENH-000176511	Provide the ability to configure choice list for String, Long, and Double input parameters for notebook web tools.
ENH-000176512	Provide the ability to view container logs and statistics on the Notebooks home page.

ArcGIS Server

ArcGIS Workflow Manager

[Top](#)

BUG-000170582	Disable 'Proceed' button when edits are made in an existing survey record opened in Edit Mode.
BUG-000171730	When ArcGIS Enterprise is configured with IWA, working jobs in ArcGIS Workflow Manager Server fail to load the configured ArcGIS Survey123 items.
BUG-000175446	The Layer List opened from the Define Location step in ArcGIS Workflow Manager (ArcGIS Enterprise) is obscured by the job window when the screen size is reduced.
ENH-000164986	Improve the documentation for Workflow Manager by including a section on utilizing extended properties.
ENH-000169134	Allow defining the display fields for results returned by Custom Search in ArcGIS Workflow Manager.

ArcGIS Enterprise 11.5 Issues Addressed List

Disaster Recovery

[Top](#)

BUG-000171297	The Web GIS Disaster Recovery (WebGISDR) tool fails to run when storing the backup in an Amazon Web Service (AWS) S3 bucket.
BUG-000171876	The WebGISDR tool times out after 24 hours when the ArcGIS Data Store content is large.
BUG-000173390	A WebGIS DR backup does not include all components if the object store and tile cache data stores are included in backups after an upgrade
BUG-000173689	Disabling access between machines on port 6080 in a multi-machine ArcGIS Server site significantly increases time taken to perform importSite.
BUG-000173878	When running Export Site or WebGISDR backups on December 27th-31st of 2024, the incorrect year is in the filename.
BUG-000176127	Backing up an ArcGIS Notebook Server site may fail due to invalid characters in the time zone.
ENH-000176500	Support the ability to include graph store data in backups created with the WebGISDR tool.

Feature Services

[Top](#)

BUG-000138833	Layer query is not respected during replica synchronization.
BUG-000167110	The symbology is not correctly displayed when utilizing a feature service published with a join in Portal for ArcGIS Map Viewer.
BUG-000167592	Slow performance when performing a field calculation on the branch versioned feature service.
BUG-000170899	Time is not being converted to UTC time for related tables for offline maps in ArcGIS Field Maps

GIS Server

[Top](#)

BUG-000147815	A series of errors are logged by ArcGIS Server when querying a feature service which utilizes the shared instance pool.
BUG-000173043	Requests to services running in the shared instance pool result in the 500 wait timeout error after rebooting Windows Server.

ArcGIS Enterprise 11.5 Issues Addressed List

High Availability

[Top](#)

BUG-000172090	A highly available portal's operationalhealth.bat incorrectly reports that federated servers with no data stores have registered data stores.
BUG-000173740	A file handle leak in Portal for ArcGIS returns the "Too many open files" error and requires frequent restarts in an Amazon Web Services (AWS) deployment.
BUG-000173884	Data included in an incremental backup of Portal for ArcGIS isn't restored if the portal is highly available.

OGC Services

[Top](#)

BUG-000174126	When a GetMap request is sent to an ArcGIS Enterprise 11.4 WMS, the server returns distorted images for specific width and height parameters.
BUG-000175021	The WMS GetFeatureInfo operation in the text/plain format returns a http 400 error when no features are found.

Security

[Top](#)

BUG-000102111	First and last name user information is not updating automatically during web-tier authenticated logins
BUG-000104020	When standalone ArcGIS Server uses Windows as the Identity store, require the use of the DOMAIN\user format for logins.
BUG-000151001	Intermittently, when opening a web application containing several services in ArcGIS Enterprise, one of the included feature services prompts for authentication, despite being shared publicly.
BUG-000172165	ArcGIS Enterprise returns the "Too many exchange refresh token" error message even though the threshold has not been reached.
ENH-000176514	Add support for defining a Content-Security-Policy header in Portal admin for the Sharing API pages.
ENH-000176535	Update Portal for ArcGIS to check for certificate and cipher suite compatibility when changes are made to either the certificate alias or the supported cipher suites.
ENH-000176536	Add support for defining a Content-Security-Policy header in Server for the rest/services html pages.
ENH-000176537	Support OAuth login in the Server administrator directory for federated servers.

ArcGIS Enterprise 11.5 Issues Addressed List

ArcGIS Web Adaptor

[Top](#)

ENH-000176538	Enhance the ArcGIS Web Adaptor Java to support the new Java EE Version.
ENH-000176540	On the ArcGIS Web Adaptor configuration page, remove the option to disable administrative access to the GIS Server.

Documentation

[Top](#)

BUG-000143907	Specify that editor tracking values will be updated when cloning items using ArcGIS API for Python.
BUG-000152147	Update the documentation for WebGISDR backups to clearly state that SAML configuration settings are not included.
BUG-000168895	The 'replaceslcertificate' utility does not update the SSL certificate on all ports detailed within the documentation.
BUG-000172044	The documentation incorrectly indicates that item reports can be sorted by Date Last Viewed.
BUG-000173963	Update the service webhooks documentation to reflect the correct range of values permitted for the maximum number of failures setting.
ENH-000127112	Clarify that if you enabled users to create their own built-in accounts before configuring IWA, they will still be able to do so after you've configured it.

Installations and Upgrades

[Top](#)

BUG-000127041	A custom web server certificate is not maintained during an ArcGIS Data Store upgrade.
BUG-000172519	Upgrading Portal for ArcGIS may fail with the "Access Denied" error referencing a Thumbs.db file.
