ArcGIS Enterprise 12.0 Issues Addressed List

ArcGIS Data Store

[Top](#)

BUG-000164057	The changedatastoremode utility contains a typo when changing the relational data store from read-only to read-write mode.
BUG-000170911	A certificate import fails with an invalid password (passphrase) when the password contains a comma (,) in ArcGIS Data Store but works fine on the OS level.
BUG-000172172	Remove tilecache folder from backup directory.
BUG-000172557	Update deletebackup default usage syntax to match Help syntax.
BUG-000175427	Configuring the object store fails when using a configuration path with special characters.
BUG-000179266	ArcGIS Data Store object store fails to configure when port 8981 is in use.
BUG-000180317	The configuration of the graph store is inconsistent.
BUG-000180319	The where clause is not being honored for data retention in ArcGIS GeoEvent Server.
BUG-000180322	Replacesslcertificate for graph store shows self-signed certificate.
ENH-000173925	Access to ArcGIS Data Store can be obstructed if the server.xml configuration file is either corrupted or incorrectly formatted.
ENH-000180318	Optimize object store container size.
ENH-000180321	Provide "configuredatastore --operation repair" to correct queue store paths if not set correctly during an upgrade.

ArcGIS Enterprise Portal

Analysis

[Top](#)

BUG-000157592	The overlaid buffers are not assigning appropriate buffer ranges in the attribute table to points within the buffer rings generated in Map Viewer.
BUG-000171357	Unable to use the same file in the same session in Map Viewer when using a custom web tool.
BUG-000177264	In Map Viewer, when performing Analysis with the Join Features tool using both the Spatial and Attribute relationship options, the outputs are empty.
ENH-000165743	Provide support for the data browser for the Enrich Layer tool in Map Viewer to have the option to specify a count, percentage, average, or index value when selecting a variable.

ArcGIS Enterprise 12.0 Issues Addressed List

ArcGIS Dashboards

[Top](#)

BUG-000171210	URL addresses in the same domain as the ArcGIS Enterprise portal open in the dashboard view when the field is defined as a link in the List widget of the dashboard.
BUG-000173292	The category field in the serial chart in ArcGIS Dashboards does not display the chart in the specified order.
BUG-000178713	Gauge widget value elements in ArcGIS Dashboards visually shift when data queries update, such as during map filtering or live data refreshes.
BUG-000178714	In ArcGIS Dashboards, the serial chart element data visually shifts when data queries update, such as map filtering or live data refresh.

ArcGIS Experience Builder

[Top](#)

BUG-000149879	Allow Attribute Table Widget in ArcGIS Experience Builder to export selected fields to CSV rather than all fields.
BUG-000151934	The Edit widget fails when selecting a feature that has related records to the child table.
BUG-000153517	Services from an Integrated Windows Authentication (IWA) configured ArcGIS Server fail to be added to ArcGIS Experience Builder.
BUG-000156635	ArcGIS Experience Builder fails to refresh tokens after 30 minutes when the ArcGIS Enterprise portal is configured with Integrated Windows Authentication (IWA).
BUG-000159481	When applying multiple actions (map filter and framework filter) on the Feature Info widget, the option to continue toggling through the attributes in the widget is not available.
BUG-000159861	The Search widget in ArcGIS Experience Builder is not responding if a search result is clicked on and held briefly.
BUG-000160107	The ArcGIS Experience Builder's Print widget does not update the output spatial reference when changing the map's basemap.
BUG-000161630	In ArcGIS Experience Builder, a Filter widget within a Button widget, when linked to a window, does not filter when the window is closed.
BUG-000165927	The Edit widget in ArcGIS Experience Builder is still active even when closing the Edit window.
BUG-000165939	The exported GeoJSON, JSON, and CSV files from the Table widget in ArcGIS Experience Builder include hidden columns.
BUG-000166026	ArcGIS Experience Builder sidebars show tooltips of content within when using the TAB keyboard key even though the sidebar is collapsed.

ArcGIS Enterprise 12.0 Issues Addressed List

BUG-000166374	For a map image layer with the MGI Austria GK East coordinate system, the transformation is ignored during selection in the ArcGIS Experience Builder app.
BUG-000166668	A geoprocessing service used in the Analysis widget fails when a private hosted feature layer is set as the input in the tool, and the web experience is hosted in ArcGIS Online.
BUG-000166930	When using the buffer option in the Select widget of ArcGIS Experience Builder, selections made further from the equator differ from those made closer to the equator.
BUG-000167620	The Table widget in ArcGIS Experience Builder does not show an accurate record count when custom parameters are set in the web map.
BUG-000168119	Selecting the Create Web Experience option for the ArcGIS Experience Builder template item received in a distributed collaboration returns the error "Sorry, you do not have permissions to access this application".
BUG-000168614	The Add Data widget in ArcGIS Experience Builder displays an error when the item does not exist or is inaccessible via a URL, especially in environments configured with Integrated Windows Authentication (IWA).
BUG-000169032	The ArcGIS Experience Builder Table widget configured for map extent will initially show a record count of all records for the referenced data while the map is zoomed in past full extent and cause blank rows to show in the table.
BUG-000169386	Route layers do not revert back to the original name in ArcGIS Experience Builder after clearing routes in the Direction widget.
BUG-000169426	When using a screen reader, ArcGIS Experience Builder returns the name of a button on the page when a window is opened.
BUG-000169651	The Enable buffer options for polygons, rectangles, and circles in the Query widget do not appear in exported web maps using the Print widget in ArcGIS Experience Builder.
BUG-000169953	The List widget has an assigned accessibility role that might not have allowed it to be properly recognized as a list by assistive technologies in ArcGIS Experience Builder.
BUG-000170321	The Print widget in ArcGIS Experience Builder incorrectly displays a raster legend with 'band_1', 'band_2', and 'band_3' instead of the point symbology from a Web Feature Service (WFS) layer in the web map.
BUG-000171067	When no features are listed in the filtered data, the List widget's height is set to automatically cover the entire column and other widgets.
BUG-000171277	The ArcGIS Experience Builder Table widget does not reflect the maximum record count set in a data view.
BUG-000172842	The List widget card with text outside of the bounding box cannot be navigated or scrolled when published in ArcGIS Experience Builder.
BUG-000172902	Displaying dynamic date or time using a 'Max' query in the Text widget shows the date or time in the GMT time zone only.
BUG-000173253	A feature service with a different projection from the basemap results in an additional selection in ArcGIS Experience Builder.
BUG-000173703	Image attachments cannot be opened in a separate tab when there is more than one image displayed in the ArcGIS Experience Builder Image widget.
BUG-000174000	A tooltip is not displayed in the ArcGIS Experience Builder app if it has been configured for an image in the List widget.
BUG-000174068	In ArcGIS Experience Builder, the calculated expression field does not function when adding new records to a stand-alone table using the Edit widget.
BUG-000174125	For line charts in ArcGIS Experience Builder, a "Too many features" limitation message is incorrectly displayed.

ArcGIS Enterprise 12.0 Issues Addressed List

BUG-000174226	Related data records fail to display when selecting more than 1000 features with the Select widget on feature layers containing related data.
BUG-000174279	When using the Add Data widget in ArcGIS Experience Builder, the record limit for a shapefile is 1,000. If this limit is exceeded, the error message "The number of records exceeds the maximum threshold" or "The file exceeds the maximum limit" is returned.
BUG-000174310	Each time a window opens with the Add Data widget, a layer is added multiple times to the map.
BUG-000174419	The Timeline widget in ArcGIS Experience Builder displays the date in US date format, despite the user profile being set to the UK date format.
BUG-000174456	The Add Data widget in ArcGIS Experience Builder does not have the option to add items from My Content in Portal for ArcGIS with IWA configuration.
BUG-000174485	The Search widget in ArcGIS Experience Builder does not return any results when searching by Global ID if curly braces are present in the search string.
BUG-000174521	In ArcGIS Experience Builder, the keyboard disappears when searching inside the List widget on an Android device.
BUG-000174537	A missing match attribute in the group filter leads to incorrect zooming or panning to the filtered features.
BUG-000174572	Subscriber content will be marked as credit-consuming in ArcGIS Experience Builder.
BUG-000174642	A layer inside a group layer is not displayed when reordered in the Map Layers widget in ArcGIS Experience Builder.
BUG-000174674	Twitter is referenced in the ArcGIS Experience Builder Share widget configuration and as the tooltip when interfacing with the X logo in the Share widget.
BUG-000174748	In ArcGIS Experience Builder, enabling and disabling the 'Clear the graphic when applying' option multiple times from the Query widget when the drawn buffer graphic setting is enabled gradually creates a non-transparent drawn selection graphic in the map view.
BUG-000174778	The print area highlight persists when zooming in and out after printing in ArcGIS Experience Builder when using the Widget Controller widget.
BUG-000174871	The Measurement widget in ArcGIS Experience Builder does not have tool tips available for the measurement tools.
BUG-000175030	ArcGIS Experience Builder List widget, if the 'Set Link' option is set, the Navigator action opens the linked view instead of scrolling up or down within the list as expected.
BUG-000175038	In ArcGIS Experience Builder, the roles assigned to the 'Print template' and Results tabs in the Print widget are incorrectly assigned as buttons rather than tabs.
BUG-000175043	In ArcGIS Experience Builder, the <div> tag with the class "root scroll-list-root" is incorrectly implemented outside a tag.
BUG-000175044	In ArcGIS Experience Builder, the Advanced button in the Print widget does not follow the established design pattern.
BUG-000175046	The 'resultOffset' request of the Search widget adds wildcards before and after the searched string in ArcGIS Experience Builder.
BUG-000175083	In ArcGIS Experience Builder, the clause box in the 'Set Filter' section of the Layer widget does not follow the established design pattern.
BUG-000175087	The Search field in the 'Set filter' window in the ArcGIS Experience Builder app does not have a programmatic ARIA label.
BUG-000175116	The Feature Info widget resets the trigger connection conditions field to 'Select a Trigger field' when the data source is configured for 'Selected Features'.

ArcGIS Enterprise 12.0 Issues Addressed List

BUG-000175171	The elevation profile widget does not generate any profiles and keeps loading when working with a local scene published in WGS 1984 UTM Zone 17N spatial reference in ArcGIS Experience Builder.
BUG-000175235	In ArcGIS Experience Builder, there are printing errors where the 'X' button does not contain a programmatic label (ARIA-disabled=true).
BUG-000175236	The Edit widget does not display the Update and Delete buttons when accessed through the Widget Controller widget in a published ArcGIS Experience Builder experience.
BUG-000175280	When running a query in the Query widget and performing a 'Near Me' query in ArcGIS Experience Builder, the error message "Cannot read properties of undefined (reading 'layer')" is returned.
BUG-000175290	In ArcGIS Experience Builder, a filtering problem occurs when the Table and Map widgets are on separate pages.
BUG-000175295	The icon of the Filter widget resets when changing the data source in a group filter in ArcGIS Experience Builder app.
BUG-000175296	Select widget in ArcGIS Experience Builder does not honor the Buffer distance while using the Select by Data option.
BUG-000175394	In ArcGIS Experience Builder, when using the Chart widget, the line chart, when split by a field, does not contain any data in the export.
BUG-000175402	The error message "Item does not exist or is inaccessible." is returned in ArcGIS Experience Builder when using URL parameters for custom locators added in ArcGIS Online.
BUG-000175406	Spatial filter using drawn geometry in the Query widget of ArcGIS Experience Builder fails to work with a feature service.
BUG-000175414	The first feature selected on a map in ArcGIS Experience Builder displays a disabled button in the Edit widget if the feature layer's form includes a calculated expression to update attributes with a new value.
BUG-000175416	Attribute values are categorized as "Undefined" for the Chart widget in the ArcGIS Experience Builder application when the value of the Category field contains Japanese text.
BUG-000175426	In ArcGIS Experience Builder, the Sidebar widget containing the Edit widget automatically expands when selecting a feature on the Map widget if the Sidebar widget is docked to the right.
BUG-000175443	When opening ArcGIS Experience Builder in an iOS browser, the Map widget tools display in front of the pop-up.
BUG-000175465	In ArcGIS Experience Builder, the Print widget does not print all of the labels of a feature layer if the Print widget is made inside a Widget Controller widget and the Print quality default setting is changed.
BUG-000175507	In ArcGIS Experience Builder, the 'Customize layers' and 'Display layers generated at runtime' options in the Map Layers widget do not accommodate items with multiple layers.
BUG-000175509	In ArcGIS Experience Builder, an unexpected sign-in prompt appears when using the custom web tool option of the Analysis widget.
BUG-000175599	Intermittent issue with displaying Query widget results when selected to display a record in a single page in ArcGIS Experience Builder app.
BUG-000175611	In ArcGIS Experience Builder, the border of a Window object cannot be configured when each side of the border is configured separately.
BUG-000175635	The Print widget in ArcGIS Experience Builder defaults to Web Mercator instead of the well-known ID (WKID) for the connected web map.
BUG-000175661	In ArcGIS Experience Builder, the Editor, Creator, Creation Date, and Edit Date fields are not displayed in the Table widget.

ArcGIS Enterprise 12.0 Issues Addressed List

BUG-000175679	Group layers added via the Add Data widget are not expandable in the Map Layers widget in ArcGIS Experience Builder.
BUG-000175685	The Locator View is not working correctly when configured to search within a specified area in ArcGIS Experience Builder.
BUG-000175701	The Create Date, Creator, Edit date and Editor fields does not show up in the table widget of Experience Builder
BUG-000175708	The text in ArcGIS Experience Builder's Edit widget Attribute only mode blends into the background when using the Dark or Violet theme, making it hard to read.
BUG-000175738	Unable to type the name of the fields in the search bar of the data view created from the List widget in ArcGIS Experience Builder.
BUG-000175764	Switching between features using pop-ups in ArcGIS Experience Builder stops working after the Edit widget is opened and then closed.
BUG-000175864	An intermittent error message "No Data" is returned in multiple List widgets of ArcGIS Experience Builder when based on any type of relationship.
BUG-000175889	The Edit widget does not display the Update and Delete buttons when accessed through a window in ArcGIS Experience Builder.
BUG-000175917	The number of records per page selector for the Query Widget in Experience Builder does not adjust to include more than 3 digits of records.
BUG-000175970	In ArcGIS Experience Builder, a feature selected with a NULL value from a List widget is displayed using the 'Other values' symbol instead of the defined NULL symbol.
BUG-000176057	Duplicating a layer within a group layer and renaming the layers results in incorrect layer names appearing in ArcGIS Experience Builder when using the Add Data widget to add data to the Map widget and viewing the layers list.
BUG-000176061	ArcGIS Experience Builder does not update the layer when using the Edit widgets for the same layer.
BUG-000176165	The Edit widget in ArcGIS Experience Builder is still active even when closing the Edit window.
BUG-000176191	The ArcGIS Experience Builder Filter widget sorts values alphabetically by code (stored value) instead of by label (display value) when the field has a domain.
BUG-000176192	The Add to table data actions in the Map Layers widget are not honored and do not display for tables after publishing the ArcGIS Experience Builder app.
BUG-000176215	The Update and Delete buttons intermittently disappear from the Edit widget in ArcGIS Experience Builder.
BUG-000176261	The Business Analyst widget in ArcGIS Experience Builder on-screen keyboard disappears from the Infographics tab.
BUG-000176268	Unchecking the Include URL parameters checkbox in the ArcGIS Experience Builder Share widget removes the item ID from the URL.
BUG-000176290	When linking the List widget to a window with data-driven information in ArcGIS Experience Builder, unselecting the entry in the list launches the window that was closed and displays no data.
BUG-000176378	When opening the ArcGIS Experience Builder web app in Safari on iOS devices, the feature pop-up appears behind a Fixed Panel widget.
BUG-000176418	In ArcGIS Experience Builder, when using a Query widget with a spatial filter to intersect features, exporting 'All data' results in a blank CSV with only the field names, while exporting 'Loaded' data produces a CSV as expected.
BUG-000176679	After editing the first feature with the Edit widget in ArcGIS Experience Builder, the next selected features are in editing mode even if the Edit widget is closed.

ArcGIS Enterprise 12.0 Issues Addressed List

BUG-000176998	The 'Show credits' option is not available for the Feature Report widget in ArcGIS Experience Builder.
BUG-000177090	The Table widget does not load attribute values from the trace results when using the Utility Network Trace widget.
BUG-000177145	The export to CSV function in an ArcGIS Experience Builder app fails when the experience is embedded using the iframe code block from the Share widget.
BUG-000177270	Buttons stop responding after opening a window while the splash window is still open in ArcGIS Experience Builder.
BUG-000177378	In ArcGIS Experience Builder, non-administrative users cannot export map image layers published to ArcGIS Enterprise.
BUG-000177397	The Business Analyst widget in ArcGIS Experience Builder generates a different site name on an infographic depending on input type.
BUG-000177454	In ArcGIS Experience, the Open view option is not working when the selection is triggered from the Search widget.
BUG-000177458	The Advanced option of the Menu widget in ArcGIS Experience Builder does not work correctly.
BUG-000178902	In ArcGIS Enterprise Experience Builder, the spatial filter with drawn geometry in the Query widget does not work correctly when applied to referenced services.
BUG-000179160	ArcGIS Experience Builder is missing the option in the Print widget to 'Use layout from layout item' that is documented and was available previously.
BUG-000179328	The Print widget in ArcGIS Experience Builder defaults to Web Mercator instead of using the well-known ID (WKID) associated with the connected web map in ArcGIS Enterprise.
BUG-000179536	In ArcGIS Experience Builder, the Edit widget in ArcGIS Enterprise displays the Update and Delete buttons intermittently when accessed through a window.
ENH-000147977	Provide the ability to disable the "Show/hide column" option in the Table widget.
ENH-000150684	In the ArcGIS Experience Builder Filter widget, provide the ability to keep the order of the predefined values.
ENH-000150699	In ArcGIS Experience Builder, implement a multi-line Arcade expression script in the Text widget.
ENH-000154652	Provide the option to add Arcade Expressions in the ArcGIS Experience Builder in the dynamic content pane.
ENH-000155034	Enhance pie chart settings by adding the option to not display counts and/or percentages in pie chart labels and legends.
ENH-000156980	Create a Batch Attribute Editor widget for ArcGIS Experience Builder.
ENH-000159018	In the ArcGIS Experience Builder Directions widget, provide an option to set barriers (polygon, line, or point layers).
ENH-000159772	Allow the ability to add points through a marker symbol when using URL parameters with ArcGIS Experience Builder.
ENH-000160531	Implement the ability to show the data source ID in the Experience Editor in ArcGIS Experience Builder.
ENH-000160943	Implement capability to export selected features as Shapefiles (SHP) and Keyhole Markup Language (KML/KMZ) file formats within ArcGIS Experience Builder.
ENH-000163386	When uploading a shapefile to ArcGIS Experience Builder using the Add Data widget, implement the ability to change the color of the added shapefile.
ENH-000164168	Improve accessibility when focus is on an element in ArcGIS Experience Builder and the next focus moves to an hidden element, visible focus is lost.

ArcGIS Enterprise 12.0 Issues Addressed List

ENH-000164169	Provide the ability to add accessibility for the Filter widget elements in ArcGIS Experience Builder to have labels that is visible to screen readers.
ENH-000164831	Allow for more than one field in the display using the proximity analysis tool in the Near Me widget within ArcGIS Experience Builder.
ENH-000165790	Add a "return to app status" function to ArcGIS Experience Builder.
ENH-000166024	Ability to not iterate through or automatically open an ArcGIS Experience Builder's side panel if it is closed when using the TAB and TAB + SHIFT keyboard keys.
ENH-000166239	Remove initial login prompts for secured layers in a public web map in ArcGIS Experience Builder.
ENH-000166268	When using the Draw widget in ArcGIS Experience Builder, provide the option to edit the symbology of the drawing after it has been created.
ENH-000166292	Provide another option, or simpler method, to gather the Data Source ID of ArcGIS Experience Builder elements for building custom URL parameters.
ENH-000166460	Improve the error message in ArcGIS Experience Builder when the download of apps fails sporadically when using different browsers.
ENH-000166893	Add the functionality to use the Feature Report widget separate from an ArcGIS Survey123 survey to ArcGIS Experience Builder.
ENH-000167488	Ability to change symbology on a feature after created through the Draw Widget in ArcGIS Experience Builder.
ENH-000168461	Set the default output spatial reference of the ArcGIS Experience Builder print widget to that of the basemap in the web map it is referencing.
ENH-000168598	Provide the functionality to wrap text for the Table widget in ArcGIS Experience Builder.
ENH-000169157	Add capability to access and use "Date Only" and "Time Only" fields in ArcGIS Experience Builder for widget configuration options.
ENH-000169399	Enable customization of the default text and URL generated when sharing via email through the Share widget in ArcGIS Experience Builder.
ENH-000169724	In ArcGIS Experience builder, provide the option to automatically toggle off a widget when another widget is clicked.
ENH-000171144	Update the ArcGIS Experience Builder Table widget documentation to include a section on Editing Privileges.
ENH-000171469	Ability to toggle feature layers in the Legend Widget.
ENH-000171475	Allow the ability to modify the buffer stroke and fill with the Near Me Widget in ArcGIS Experience Builder.
ENH-000171558	ArcGIS Experience Builder must allow the developer to set a default or mandatory origin or destination point for the Directions widget.
ENH-000172071	In ArcGIS Experience Builder, implement the screening widgets print report functionality, similar to what was available in ArcGIS Web App Builder, for use in the equivalent near me widget.
ENH-000172091	In ArcGIS Experience Builder, the Draw tool should have an option to edit the graphic styles while in use.
ENH-000172184	Enable the user to export a shapefile in the Near Me widget in ArcGIS Experience Builder.
ENH-000172605	In ArcGIS Experience Builder, add zoom and pan controls to the Image widget.
ENH-000174255	Request for buttons in the Table widget ArcGIS Experience Builder to have discernible text.
ENH-000174256	Improve accessibility for the Table widget in ArcGIS Experience Builder.
ENH-000174610	Allow support for Big Integer, Date Only, Time Only and Timestamp Offset fields in ArcGIS Experience Builder Search Widget.

ArcGIS Enterprise 12.0 Issues Addressed List

ENH-000174845	Allow the measurement tool in ArcGIS Experience Builder to be consistent with the measurement tool in Map Viewer.
ENH-000174981	Request for ArcGIS Experience Builder widgets to support Big Integer data types for fields in their configuration.
ENH-000175022	Request to deactivate the interactive selection option(s) in the Select widget when the pane is closed in ArcGIS Experience Builder.
ENH-000175248	Request to deactivate the interactive selection option(s) in the Select widget when the pane is closed in ArcGIS Experience Builder.
ENH-000175573	Request to add a No Fill color option for the sketch color in the Near Me widget in ArcGIS Experience Builder.
ENH-000175725	Request to enhance the Map Layers widget in ArcGIS Experience Builder by enabling it to recognize and manage Subtypes within the Customize Layer tab.
ENH-000175894	Allow the Edit widget of ArcGIS Experience Builder application to load faster.
ENH-000176066	Add option to customize or hide resulting legend when exporting Near Me widget's results to PDF.
ENH-000176116	Allow reordering fields in the Table widget while retaining field formatting defined in the feature layer or web map, such as decimal places, number formatting, and field aliases.
ENH-000177354	Add an option to display related records within the Table widget in ArcGIS Experience Builder.
ENH-000177403	ArcGIS Experience Builder Edit widget in 'Attributes only' mode triggers the 'Discard edits? You have unsaved changes that may be lost.' prompt when using a Smart Form with Arcade calculated expressions, even if no manual edits are made and the form is not visibly open.
ENH-000177533	In ArcGIS Experience Builder, support big integer data type columns in the Table widget.
ENH-000177707	Add complete web client support for Big Integer, Date Only, Time Only and Timestamp Offset fields in ArcGIS Experience Builder.
ENH-000178387	Allow users to create lists using the List widget with statistics grouped by fields in ArcGIS Experience Builder.

ArcGIS StoryMaps

[Top](#)

BUG-000174549	In ArcGIS StoryMaps, the list is marked up incorrectly for slide buttons in a SideCar.
BUG-000174551	Accessible name 'Return to Top' does not match with the visual Label.
BUG-000174900	In Firefox browser, user is unable to drag and move slide in briefing and Sidecar/Map tour block of story builder.
BUG-000175914	Applying Media Action to text results in center alignment after publishing a sidecar in ArcGIS StoryMaps.
BUG-000176401	The arrow in ArcGIS StoryMaps, indicating additional content is available farther down the page, has insufficient contrast.
BUG-000177055	Users are unable to modify Esri map sources/credits text and background in ArcGIS StoryMaps for improved accessibility.
BUG-000177779	When using the list or grid layout for a categorized tour in ArcGIS StoryMaps, attachments display in reverse order compared to how they are configured in the hosted feature layer.
BUG-000178959	Image captions do not appear after adding attribution in ArcGIS StoryMaps.

ArcGIS Enterprise 12.0 Issues Addressed List

BUG-000179037	The Thai translation is incorrect for the 'Quote' button when editing in ArcGIS StoryMaps in ArcGIS Enterprise.
---------------	---

Distributed Collaboration

[Top](#)

BUG-000154789	The Distributed label continues to appear on groups linked to a collaboration even after the Distributed Collaboration has been removed.
BUG-000168056	ArcGIS Web AppBuilder and ArcGIS Instant Apps templates, such as the Basic Viewer template, cannot be shared as copies from the ArcGIS Enterprise portals to ArcGIS Online organizations hosted in the EU region.
BUG-000174347	The synchronization of an ArcGIS Experience Builder item with a Search widget fails when shared in a Distributed Collaboration between ArcGIS Online and Portal for ArcGIS.
BUG-000180770	Distributed Collaboration configuration updates fail to synchronize to collaboration participants after upgrading to Portal for ArcGIS 11.5.
ENH-000180812	Allow sharing public item dependencies to distributed collaboration groups when a public item is shared to that group.

Home Application

[Top](#)

BUG-000162583	Creating an offline map area fails when using a cached image service in the web map.
BUG-000169025	A 404 metadata error is returned when viewing an item with no metadata.
BUG-000171533	If the 'Share member content with organization' or 'Share member content with public' content privilege is enabled for a custom role and 'View all' is not enabled, accessing the item details page shared with the organization is not possible. Attempting to access the item details page returns the error message "You do not have permissions to access this resource".
BUG-000172227	In Portal for ArcGIS, when editing or creating a Field's List of Values, the "Save" button does not grey out and prompts errors if you hit it more than two times.
BUG-000174081	Add default style symbology to the custom style group when updated in the organization's settings, map, and web styles.
BUG-000175327	Custom parameters are not applied when creating a new ArcGIS Server web service through a URL.
BUG-000175607	Links added to a text content block on the portal's home page do not open in a new tab.
BUG-000176699	Confirmation of email configuration is not visible and appears dark.
BUG-000177010	Attempting to open Server license info from About fails.
BUG-000177127	When adding a new member in Portal for ArcGIS, Active Directory groups can be assigned to the user.
BUG-000177329	The portal's home page cover image becomes distorted when a custom image is used and the zoom level leaves side gaps.

ArcGIS Enterprise 12.0 Issues Addressed List

BUG-000177598	After the ArcGIS Online June 2025 release, the Organization Overview page displays license indicators in red color when there are no licenses left to assign, while the same indicator in the Add-on Licenses page does not appear in red.
BUG-000178204	The extentService set with 'URL to local map service' in a disconnected environment is ignored when using Metadata Editor and instead makes a request to an ArcGIS Online service.
BUG-000178457	Administrators, and those with the necessary administrative privileges, cannot change owner of data store items in the ArcGIS Enterprise portal.
BUG-000178512	Selecting a classification from the picklist can result in two classifications being selected.
BUG-000180775	When a map image layer is published with WMS enabled, the item page fails to correctly display the WMS properties configured during publishing.
BUG-000180777	Operations for server object extensions (SOEs) and server object interceptors (SOIs) cannot be enabled or disabled from the item page of map image layers and imagery layers.
BUG-000180811	Tile creation from the item page fails for map image layers that reference federated servers.
BUG-000180813	When a map image layer is published, the item page fails to correctly display the tile settings configured during publishing.
BUG-000180816	When a server object extension (SOE) that does not support shared instances is enabled on an imagery layer, the resulting error message fails to display the correct file name.
BUG-000180825	When a member is assigned a duplicate license due to a user type update, the "Manage add-on license" dialog does not un-assign the duplicate add-on app upon deselecting it.
BUG-000180828	Bulk select and unselect actions stop working on the Members page after manually selecting users in the portal.
BUG-000180830	When publishing a hosted feature layer from a CSV or Excel file in the Enterprise portal, the user-selected time zone is not honored.
BUG-000180833	When attempting to update an existing Portal group by connecting it to an Active Directory or LDAP enterprise group, if the update is unsuccessful, the error message provided is generic and does not match the message returned by the API.
BUG-000180834	Unassigning ArcGIS Pro Advanced through the Unassign duplicate add-on license dialog fails if any of the nine ArcGIS Pro extensions included with the Professional Plus user type are not available as add-on licenses in the organization.
BUG-000180860	The Sign in page is not translated when organization language is set to Norwegian.
BUG-000180861	The option to add Living Atlas items to groups is shown when Living Atlas is disabled.
BUG-000180863	In ArcGIS Enterprise, custom roles not assigned the administrative privilege to view all content are unable to view the Item Details page for content shared to the organization or public owned by another user.
ENH-000150771	Allow administrators to configure per app login for custom apps.
ENH-000175683	The "Open in browser" button is missing from the Survey123 form item details page in the ArcGIS Enterprise portal.
ENH-000180774	Support publishers creating service webhooks from the item settings page.
ENH-000180815	Enhance the About API to include installed patch details for each component in your ArcGIS Enterprise deployment.
ENH-000180817	Enhance the About API to include full and incremental backup details for the ArcGIS Enterprise deployment.
ENH-000180819	Manage the availability of localized and external Esri content in your organization from the portal.
ENH-000180823	Support publishing service definition files from the Enterprise portal.

ArcGIS Enterprise 12.0 Issues Addressed List

ENH-000180824	Support enabling editing for custom data feature services from the Enterprise portal.
ENH-000180835	Support blocking members from authorizing ArcGIS Pro with their named user license through the Blocked Esri apps and capabilities settings in the portal.
ENH-000180862	Check the item classification schema for color contrast compliance before assigning it to the organization.
ENH-000180866	Provide support for Dublin Core+ metadata style in ArcGIS Enterprise.

Map Viewer

[Top](#)

BUG-000137435	When adding an image service with multiple raster datasets to a web map, creating a filter does not prepopulate the unique values from the attribute table.
BUG-000156603	The feature service with line geometry vanishes temporarily while zooming in or out when drawn at a very small scale
BUG-000173556	Map Viewer takes longer than Map Viewer Classic to return an error when a non-administrator SSO user opens a web map containing a layer without the required access permission.
BUG-000173691	Unable to create new features in the ArcGIS Enterprise Map Viewer hosted feature layers generated as output using the Join Features tool.
BUG-000176427	Allow setting and editing the feature's title that is shown in Editor's "selection list".
BUG-000177787	Setting a filter in the Map Viewer disables pop-ups of map image layers within web maps in the ArcGIS Enterprise portal.
BUG-000178563	BUG-000178563 Unable to add a Maritime Chart Service (MapServer) to ArcGIS Online MapViewer
ENH-000147095	Allow the ability to save edits at the layer level for changes made to Map Image Layers in Map Viewer.
ENH-000180821	Allow users to drag and drop files to map in Map Viewer.
ENH-000180822	Add support for batch attribute editing in Map Viewer.

Portal Framework

[Top](#)

BUG-000157773	The configureserviceaccount tool tries to assign permissions to a customizations folder that is no longer present.
BUG-000174712	Unable to import a Portal for ArcGIS license file with the error: "Failed to configure the definition of the userTypes " .
BUG-000176734	The About API returns incorrect and reversed values for the number of physical processors and logical processors used by Portal for ArcGIS.
BUG-000177260	Updating the federated server URL incorrectly updates the portal content URLs, resulting in inaccessible content and negatively affecting federation.
BUG-000177797	When attempting to update a member's email address, it reverts back to the previous one.

ArcGIS Enterprise 12.0 Issues Addressed List

BUG-000177808	Web applications installed with Portal for ArcGIS 11.5 may intermittently fail to fully load all content, and the browser console shows the "ERROR: ChunkLoadError: Loading chunk xxxx failed." error message.
BUG-000178102	The "Temp" folder in Portal for ArcGIS is not being automatically cleaned up, resulting in disk space issues.
BUG-000178126	Correct formatting of indexer.bat output.
BUG-000179034	Deep learning models larger than 1 GB fail to import in Living Atlas.
BUG-000179287	"Failed to edit portal directory 'content'. JsonObject Code: 500" when editing the ArcGIS Enterprise content directory from the file system to the S3 bucket.
ENH-000159457	Support the ability for an administrator to configure an organization to enforce multifactor authentication for all members.
ENH-000180818	Add support for ArcGIS Solutions in content migration group export and import.
ENH-000180820	Support the ability to send automatic email notifications when SSL certificates are about to expire.
ENH-000180832	Provide the ability to report mismatched items/users/groups in the Index when a record exists in the index but not in the database.

Scene Viewer

[Top](#)

BUG-000129192	The scene layer fails to filter correctly while utilizing SketchViewModel.
BUG-000176175	When the ground transparency is set to 100% in the Scene Viewer, the imagery is no longer considered a navigable surface.
ENH-000173716	Request for adding Integrated Mesh 3D Tile Layer using URL as an item in ArcGIS Online.

Security

[Top](#)

BUG-000178245	When editing the email address for an account in the ArcGIS Enterprise portal, "Unable to update email. Location platform account with this email address already exists." is returned if the email is used for another account.
BUG-000180826	The portalScan.py security scan script not accurately reporting the system properties settings.
ENH-000180829	Add support for defining a Content-Security-Policy header for HTML pages in the Portal Administrator Directory.
ENH-000180831	Provide the ability to view and adjust the profile visibility for all users.
ENH-000180864	Provide an option in the Home application to enable and disable the RSS service and KML service.
ENH-000180865	Provide an option in the Home application to manage the portal's proxy capability.

ArcGIS Enterprise 12.0 Issues Addressed List

Webhooks

[Top](#)

BUG-000177212	Disabling webhooks on federated server still makes a database connection.
BUG-000178854	Creating an Organization webhook with the "updateUserRole" trigger fails.

ArcGIS Enterprise SDK

[Top](#)

BUG-000175564	In ArcGIS Enterprise SDK, the <code>IUtilityNetworkQuery2Proxy.getElements(GUID,Object[],Object[])</code> Java method returns an empty array, while the equivalent .NET method returns valid results
ENH-000160843	Expose <code>IFeatureIndex</code> and <code>IIndexQuery2</code> Interfaces in ArcGIS Enterprise SDK 12.x
ENH-000167078	Add Annotation and Dimension Feature Class Support in ArcGIS Enterprise SDK

ArcGIS Mission

[Top](#)

BUG-000175746	ArcGIS Mission Manager tasks are positioned with the wrong location caused by the basemap.
BUG-000177857	Custom reports do not show on an ArcGIS Mission created from a mission template.
BUG-000179080	ArcGIS Mission Responder users are logged out, or the app crashes when the app is left in a background state for a long period of time.
BUG-000179093	Users using ArcGIS Mission Responder on both iOS and Android devices are intermittently prompted with error message: "Your account is currently active on another device. You have been disconnected from this mission. For more information, please contact your ArcGIS System Administrator".
BUG-000179095	In ArcGIS Mission Manager, last known location pins are disappearing from the map.
BUG-000179356	Limitations when creating multiple mission jobs.
BUG-000179857	Mission report layers are not added to the map when a new mission is created from a mission template with reports.
ENH-000130062	Include the capability to consume custom basemaps in ArcGIS Mission.
ENH-000150165	Allow assigning of a task to more than one team member.
ENH-000150311	Please allow to select Active team members within created buffer in a map and provide a way to send message or create a task for those selected members.
ENH-000172017	Improve documentation regarding port availability for ArcGIS Mission Server.
ENH-000179732	Enable Display of Attached Photos in Pop-ups from Mission Layers in Mission Manager.

ArcGIS Enterprise 12.0 Issues Addressed List

ENH-000179996	Add the functionality when creating a task in ArcGIS Mission Manager to be able to search for addresses when you "set location".
---------------	--

ArcGIS Notebook Server

[Top](#)

BUG-000178357	Parameters not displayed when creating or editing notebook tasks.
BUG-000179572	ArcGIS Web Adapter (Java) for Notebook Server on AWS Ubuntu instance periodically unregisters.
BUG-000180872	Unable to upload files to custom data directories in Notebook editor.
ENH-000180873	Add ability to batch share notebook items from Notebooks home page.
ENH-000180883	Add ability to batch delete notebook items from Notebooks home page.
ENH-000180884	Add ability to batch update notebook runtimes from Notebooks home page.
ENH-000180885	Provide user experience for opening new notebooks from templates.
ENH-000180886	Add functionality to create and manage notebook webhook receivers in organization settings.
ENH-000180888	Add visual reminder for scheduled notebooks on the Notebooks home page.
ENH-000180889	In ArcGIS Notebook Runtime version 13.0, include ArcGIS API for Python 2.4.2, ArcPy 3.6, and their dependencies.
ENH-000180890	Display granular and localized error messages on Notebook pages when operations fail due to Notebook Server Admin API errors.

ArcGIS Server

ArcGIS Workflow Manager

[Top](#)

BUG-000176037	ArcGIS Survey123 tokens time out after 30 minutes when the survey is embedded in ArcGIS Workflow Manager
BUG-000176850	Unable to create jobs when one of the Workflow Manager services is stopped in a highly available environment.
BUG-000176862	In ArcGIS Workflow Manager, the Assigned To drop-down menu in the job templates does not allow selection of a group when the user language is set to Dutch.
BUG-000178381	The Run GP Service step gets stuck in the running state on a multi-machine ArcGIS Workflow Manager site.

ArcGIS Enterprise 12.0 Issues Addressed List

Caching

[Top](#)

BUG-000178927	Publishing a scene layer from a .slpk file fails if the ArcGIS Server cache directory is not named 'arcgiscache'.
BUG-000179674	Publishing a cached image service with the "Allow Clients to export cache tiles" option enabled may create incorrect tile packages even though the export job succeeded.

Disaster Recovery

[Top](#)

BUG-000174064	A WebGISDR error is returned when setting the backup to Azure Blob Storage while using the User-assigned identity type credential with the AZURE_BLOB_USER_MI_CLIENT_ID property set.
BUG-000177832	After importing a WebGISDR backup taken from an environment containing a highly available ArcGIS Enterprise portal into an environment containing a single machine ArcGIS Enterprise portal, attempting to join a machine to the site will fail.
ENH-000152307	Add the ability to upload exported Portal for ArcGIS Site file to AZURE Blob using POST web request from the local machine.
ENH-000168797	Implement the WebGISDR restoration process via an asynchronous TCP connection.

Feature Services

[Top](#)

BUG-000122249	The modulo operator(%) is not respected in the REST queries.
BUG-000166715	The POST request for the extractChanges operation, using the Python urllib module, ignores the layer parameter.
BUG-000169677	In the ArcGIS REST Services Directory interface, a query on a query layer with SDO_Geometry fails when using an object IDs filter.
BUG-000170932	Definition queries based on a shape-related field fail to verify the SQL expression for a published feature service using ArcGIS Pro when standardized queries for the ArcGIS Server site are disabled.
BUG-000171737	After installing ArcGIS Server 10.9.1 Utility Network and Data Management Patch 7, creating new utility network features returns the error "Unable to complete operation. The field is not nullable" when the editor tracking fields in the utility network tables have a NOT NULL constraint.
BUG-000172904	The QueryAnalytic operation on a referenced feature layer returns query results even though querying is disabled on the referenced feature layer using the 'Editors can't see any features, even those they add' option.
BUG-000173927	A web map that contains a date filter on data sourced from an enterprise geodatabase returns severe error messages in the server logs.

ArcGIS Enterprise 12.0 Issues Addressed List

BUG-000174292	Publishing a hosted feature layer with a relationship class from ArcGIS Pro to ArcGIS Online and sharing it with ArcGIS Enterprise 11.4 via a distributed collaboration (as copies) causes a REST endpoint error due to a missing 'name' property under relationships.
BUG-000175567	Feature service shutdown leaves some geodatabase connection information, which is cleaned up on the next geodatabase connection.
BUG-000176456	Performing a Select By Attributes operation on a specific field of a branch versioned feature service layer within a utility network is utilizing nearly 10% of the CPU load on the database server.
BUG-000177471	Optimize generation of the default replica name in the createReplica operation.
BUG-000178298	Allow editing on simple branch versioned datasets without the ArcGIS Advanced Editing user type extension.
BUG-000178442	When working with a branch versioned feature service, attempting to use it as the target dataset for the Append tool fails with the error "ERROR 001260: Operation not supported on table" if the data contains a non-nullable field.
BUG-000178964	Contingent values are not displayed correctly in some web and runtime clients when editing with referenced feature service layers.
BUG-000179883	Improve input validation errors with data elements.
BUG-000180891	When synchronizing back to the client, edits made to other features via attribute rules are not being included within the delta geodatabase.
BUG-000180892	When updateGeometry is set to false, the Append API does not skip the geometry update.

Geoprocessing Services

[Top](#)

BUG-000149973	Attempting to overwrite web tools to a non-hosting ArcGIS Server returns the "Overwriting is not supported to your portal" error in ArcGIS Pro.
BUG-000173052	Web tools fail to access folder based project data when they are published with a referenced connection that has the publisher's machine and the ArcGIS Server site reference different folders.

GIS Server

[Top](#)

BUG-000179710	Hosting server unable to query and return any data from the relational data store and the ArcGIS Server log returns the error message "Hosted//FeatureServer: Ignite failed to process request".
BUG-000180867	Updates to the system property "webServerMaxRequestsThreads" property are not reflected for all machines in a site.

ArcGIS Enterprise 12.0 Issues Addressed List

High Availability

[Top](#)

BUG-000175256	The publishing process will fail at the addToDefinition request if the process is too fast in highly available ArcGIS Enterprise environments.
BUG-000175806	During the upgrade of a highly available portal, the ports used for the in-memory cache are not validated as being accessible between the primary and standby portal.

OGC Services

[Top](#)

BUG-000135281	The Web Feature Server (WFS) services do not return the output format containing ZIP although it is listed as a supported format in the capabilities file.
BUG-000162204	The Web Feature Service (WFS) layer GetFeature GeoJSON response is not GeoJSON compliant; neither GmlID nor FID attributes are recognized as commonly used identifiers, and none is included as a member of a feature object with the name 'id' and the value.
BUG-000170693	Exporting a Web Feature Service (WFS) to a shapefile fails in ArcGIS Enterprise 11.3.
BUG-000175049	The encoding of null values for Date field type in the Web Feature Server (WFS) GetFeature response in ArcGIS Server is incorrect; it displays "null" instead of being blank/null.

Publishing

[Top](#)

BUG-000152968	If the publisher database is different from the server database during publishing with ArcGIS Pro, and ArcGIS Server can access the publisher database, the PublishingTools service makes a connection to every layer in the publisher database, leading to a performance issue with publishing.
BUG-000171027	No layers are published to the service REST endpoint when publishing a join between datasets across multiple workspaces, where one or both of the datasets are located in a UNC share and none of the datasets are located in an enterprise geodatabase.
BUG-000173372	Unable to publish joined feature layers as a map image when sourced from two different databases in ArcGIS Pro.

Security

[Top](#)

BUG-000179056	OAuth logins on the Server admin api redirect back to the /login page when using SAML or OIDC logins
---------------	--

ArcGIS Enterprise 12.0 Issues Addressed List

BUG-000179512	During authentication, a password with a specific character count that is set up as a stand-alone ArcGIS Server with LDAP identity store produces a blank error
ENH-000180870	Add support for defining a Content-Security-Policy header for HTML pages in the Server Administrator Directory.
ENH-000180871	Add a warning message in the Server logs when the active SSL certificate used on 6443 is close to expiring.

Documentation

[Top](#)

BUG-000114057	Portal for ArcGIS allows the configuration of both Windows/LDAP groups and SAML based groups.
BUG-000149153	Clarify in documentation that the Refresh Service task is applicable to additional service types in versions newer than ArcGIS Enterprise 10.3.
BUG-000149631	The JavaScript Object Notation (JSON) string is incorrect in the Microsoft Azure Blob storage container example in the 'Changing the portal content directory' help topic.
BUG-000167083	Add command line syntax for installing ArcGIS Coordinate System Data.

Installations and Upgrades

[Top](#)

BUG-000148463	Add prerequisite check to upgrade logic when spatiotemporal is in read-only mode.
BUG-000171951	The upgrade of Portal for ArcGIS fails if the default self-signed certificate named 'portal' is deleted prior to the upgrade.
